1. BACKGROUND INFORMATION

1.1 ABOUT CHHATTISGARH

Chhattisgarh, a 21st century State, came into being on November 1, 2000. Larger than Tamil Nadu, it is just the right size, and is also fortunate to have a low population density. Good Governance is the highest priority in this Fast Track State. There is both policy stability as well as political stability. Government has been kept small and the State is in excellent fiscal health.

Chhattisgarh is truly a land of opportunities. With all major minerals including diamonds in abundance, it is the richest State in mineral resources. There are mega industries in Steel, Aluminium and Cement. Chhattisgarh contributes substantially to the Human Resources of India. Several hundred students from the State qualify for admissions in prestigious academic institutions every year. Bhilai, the knowledge capital of the State, alone sends over 50 students to the elite Indian Institutes of Technology every year.

Its large power surplus is attracting power-intensive industries, and the State is poised to become the power-hub of the nation. Its central location helps easy power transmission to any part of the country. 12% of India's forests are in Chhattisgarh, and 44% of the State's land is under forests. Identified as one of the richest bio-diversity habitats, the Green State of Chhattisgarh has the densest forests in India, rich wildlife, and above all, over 200 non-timber forest products, with tremendous potential for value addition. One third of Chhattisgarh's population is of tribes, mostly in the thickly forested areas in the North and South. The central plains of Chhattisgarh are known as the "Rice Bowl" of Central India. Female literacy has doubled in the last decade, and male literacy is higher than India's average. Gender ratio is next only to Kerala. Bastar is known the world over for its unique and distinctive tribal heritage. The Bastar Dasher is the traditional celebration of the gaiety of tribal. Many virgin, unexplored tourism destinations are there in all the parts of Chhattisgarh.

2. ABOUT MUKHYA MANTRI YUVA SWAVALAMBAN YOJANA FOR GOVERNMENT OF CHHATTISGARH

Chhattisgarh has already established itself as a major educational hub with presence of premier institutions like NIT, IIM, NLU and AIIMS. Chhattisgarh, also, has many other world class educational institutions for professional programmes such as Engineering, MCA and MBA as well as in Humanities, Commerce and the Sciences. However, there is a gap between the number of students graduating and the number of students getting placed. There is a tangible gap between present state of aptitude and the required aptitude

for getting selected in prestigious organizations. Hence, there is a need to establish the platform which could increase the employment opportunities.

It is an observed trend that most employers in IT and ITeS sector have rigorous training programmes that provide the necessary technical skills that are required to perform the jobs for which they hire. The focus, when these employers hire, is on assessing a range of abilities. The most common way to check learning ability is to test the prospective employee on the following traits:

- Quantitative Aptitude
- Verbal Ability
- Logical and Analytical Ability
- Presentability
- Ability to articulate ideas (through Group discussions)

The general curriculum of our education system has been focussed on imparting technical skills. However, aptitude is an area which tends to get ignored and thus students from Chhattisgarh tend to lose out to fresh graduates from larger cities which offer better opportunities for schooling and more exposure. Therefore, imparting abilities training to help them prepare for the selection process in a short and concentrated capsule is expected to improve greatly the chances of the students of Chhattisgarh securing employment with some of the best employers in the IT/BPM space.

The training must also be complemented with efforts to establish the credibility of Chhattisgarh in providing quality talent as well as to ensure that reputed organizations come to Chhattisgarh for recruitment. This may start the trend where students, corporate and government of Chhattisgarh are mutually benefitted.

Evaluation of Commercial Bid:

- 1) The commercial bids of only technically successful Bidder(s) whose bids have been awarded 60 or more marks in aggregate by the Committee will be opened. The evaluation will be carried out if Commercial bids are complete and computationally correct. Lowest Commercial proposal will be allotted a Commercial score of 100 marks.

The Commercial score of other Bidder(s) will be computed by measuring the respective Commercial bids against the lowest proposal.

- 2) The bidder with the Highest Technical Marks will be awarded 100 marks and others bidders will

be awarded on pro-rata basis (e.g.) if the highest technical Marks is 90, the T1 bidder will get (Tm) 100 marks. A bidder awarded 80 marks will get $(80/90) \times 100 = 88.88$ Marks.

3) Computing the final (“T1-L1”) marks:

The composite score is a weighted average of the Technical and Commercial Scores. The ratio of Technical and Commercial score is 70:30 respectively. The composite (T1 – L1) marks will be derived using the following formula:

T1 & L1 evaluation

Technical Marks (TM) = Bidders actual Technical Score (ATS) / Highest Technical Score (HTS)

Commercial Marks (CM) = Lowest Commercial Score (LCS) / Bidders actual Commercial Score (ACS)

Composite (T1 – L1) marks = $(TM * 0.70 + CM * 0.30) * 100$

Thus the composite (T1 – L1) marks shall be out of a maximum of 100 marks.

The responsive Bidder(s) will be ranked in descending order according to the composite (T1 – L1) marks, which is calculated based on the above formula. The highest-ranking Bidder as per the composite (T1 – L1) marks will be selected.
